Bishop, Charles E. Richardson, Andrew B. Henderson, Martin A. Thompson, Fred A. Bodge and Harry A. Parsons.	

Mayor's Address

Gentlemen of the City Council :

Before taking up with you some of the many problems of our city which will confront us in our administration, I desire and entreat you gentlemen to give me your entire support and co-operation so that the best interests of our city will be advanced ; and I will do all that I can in the administration of the duties which are incumbent upon me, so that our combined efforts will mean that our city will advance and keep step with other progressive cities throughout the state. I sincerely hope that our meeting will be harmonious, and that a spirit of unison may predominate and that the best interests of our city will be uppermost in the minds of each and everyone of us whenever any business is before the council, Let us not be partisan when the best interests of our city may thereby suffer, but on the contrary let it also be said of our administration that we have at all times honestly utilized our humble efforts in the direction of honest, safe and sane government. It is my firm intention to watch over and see that all appropriations are used for the purpose intended by the council, and to curtail all unnecessary expenditures.

Briefly I will outline some of the work to come before us in the various departments.

ROADS

All new road work should be of a permanent type, which is very vital under our present motor traffic, and our appropriations should be sufficient to finish sections of our roads that have been partly constructed, and this I believe, should be attended to as soon as possible, so that summer traffic will not be delayed, and especially all main streets leading through the city over which there is

a great amount of travel should be in good repair before the tourists begin to travel. I recommend that all state roads receive our attention as soon as weather conditions will permit. I also recommend that an appropriation be made to be used in the application of a coat of asphalt on some of the roads that lead into our main streets.

SIDEWALKS

I would recommend that our sidewalks be made of some permanent material, as I believe this will be more satisfactory and of less expense to the city.

RIVERBANK PARK

I have no recommendations to make as I believe the Park Trustees are capable of caring for this department as they have done in the past.

LIBRARY

This department should not need any great amount as it is in excellent repair and well managed.

SCHOOLS

I would recommend for this department that we do all in our power to improve as much as we can our present high standard, and to make it higher and on par with the best schools of any city in our state. Our schools develop our future citizens, and we should assist them by adopting the best methods of public education.

FIRE DEPARTMENT

I find this department in good condition and recommend the purchase of one thousand feet of hose which they are in need of.

CITY HOME AND POOR

I think this department does its task in a faithful manner, and I know of no great expense in this department for this year.

SEWERS

The sewer construction for our city has been mostly carried on to provide for local areas where house building is actually in progress with little regard for the ultimate needs of a carefully designed system. Prince and a portion of King Street have for some years been in need of sewerage facilities, but owing to the lack of an outfall nothing could be done to relieve the situation. An outfall for this region was begun in the fall of 1922, and in 1924 was finished to Prince Street. An appropriation of about fifteen hundred dollars would be sufficient to build a sewer in Prince Street from the terminus of the present sewer to Myrtle St., and this would provide for a number of dwellings that now discharge their sewerage into the gutters of the street, and I believe a sufficient appropriation should be made to construct the above described work.

CEMETERIES

Woodlawn and Saccarappa Cemeteries are both in excellent condition, and are well managed by our Board of Trustees.

In closing, gentlemen, I urge you to render all possible assistance in making our city a bigger, better and healthier community to live in, and with that as your motto go forward fearlessly with a determination that will continue throughout the year and gain for yourselves that mark of esteem that should rightfully be yours for the many tasks well done.

REPORT OF THE Chief Engineer of Fire Department

WESTBROOK, ME., Jan. 18, 1926.

To the Honorable Mayor and City Council of Westbrook :

GENTLEMEN :—I beg to submit the following report for the year 1925 :

Report of the Health Officer

WESTBROOK, ME., Jan. 14, 1926.

To the Honorable Mayor and City Council of the City of
Westbrook.

GENTLEMEN:—I wish to submit the following report
for the year ending December 31, 1925.

The number of contagious diseases reported during
the year were 110. Classified as follows:

Chicken Pox,	4
Diphtheria,	25
Measles,	2
Mumps,	8
Pneumonia,	2
Scarlet Fever,	60
Tuberculosis,	2
Typhoid Fever,	3
Vincent's Angina,	4
	<hr/>
	110

NUISANCE COMPLAINTS

There were twenty complaints of unsanitary conditions reported during the year 1925. This is a much smaller number than usual, which would indicate that the property owners are paying more attention to the conditions of their property.

A number of the complaints were for sewer conditions on the following streets: King, Cumberland, West Pleasant, Pierce and Falmouth Streets, Glenwood Avenue and New Gorham Road. These are referred to your Honorable body for consideration.

Complaints have been made in regard to the collection of garbage. I do not think it is proving very satisfactory, but I am doing the best I can with the small amount allowed for this work. A number of other complaints of a trifling nature which were taken care of by the owners or occupants of the property.

CHASE BLOCK COMPLAINT

Early in the past summer, complaint was made of the condition of the sewer in the rear of the Chase Block. I at once took this matter up with the Street Commissioner, Mr. Bodge, and on investigation we found some of the pipe broken, allowing the water to spread on the ground. The broken pipe was removed and replaced by new pipe. Late this Fall I have learned in an indirect way that our work did not prove satisfactory. I have referred this matter to Mr. Curtis, Street Commissioner, for investigation.

RECOMMENDATIONS

I would recommend that the sewer appropriation be increased this year, so as to meet the demands of our rapidly growing city. I feel that we should wake up to the fact that the first considerations should be for the protection of our citizens in regard to everything pertaining to a healthy city.

In closing I wish to thank the City Officials for their courtesy during the past year.

Respectfully submitted,

PATRICK H. WELCH,

Health Officer.

Report of the Treasurer

WESTBROOK, MAINE, December 31, 1925.

To the Honorable Mayor and City Council of the City of
Westbrook :

GENTLEMEN :—In accordance with the requirements of
Section 5, Chapter 5, of the Ordinances of this City, I
hereby submit the following report of the receipts and
expenditures of the City during the fiscal year ending
December 31, 1925.

Respectfully submitted,

RALPH W. MILLER,

Treasurer.

RALPH W. MILLER, Treasurer,

Report of the Chief of Police

WESTBROOK, ME., Jan. 4, 1926.

To the Honorable Mayor and City Council :

I hereby submit the following report for the year 1925 :

Total number of arrests,	76
Total brought before court,	55
Total number for intoxication,	24
Total number for assault and battery,	9
Total number for operating a car while under the influence of liquor,	7
Total number for larceny,	4
Total number for indecent language,	1
Total number leaving scene of accident,	2
Total number for vice,	1
Total number for receiving stolen goods,	1
Total number for keeping unlicensed dogs,	1
Total number for breaking and entering,	2
Total number turned over to outside officials,	3
Total number of tramps applied for lodging,	220
Total number of store doors unlocked,	40
Total number of house calls,	30

Respectfully submitted,

WILLIS P. MITCHELL,
Chief of Police.

Report of the Milk Inspector

WESTBROOK, MAINE, December 31, 1925.

To the Honorable Mayor and Board of Aldermen of the
City of Westbrook:

GENTLEMEN:—I hereby submit the following report
for the year of 1925.

Samples tested for butter fat,	16
Complete analysis of milk made,	1
*Bacteria determinations,	2
Complaints received,	none
Complaints investigated,	none

*(Bacteria counts made by the Portland Department of Health
Laboratory.)

The barns and dairies of the larger dealers are sanitary, and the cattle are clean and well kept. The sanitary conditions are not as good in the case of some of the small dealers who only keep one or two cows, but these conditions are not bad enough to warrant any drastic action.

Respectfully submitted,

WILFRED V. TORREY,
Milk Inspector.

REPORT OF THE Sealer of Weights and Measures

To the Honorable Mayor and City Council:

GENTLEMEN:—I have the honor to submit the following report of my official duties as Sealer of Weights and Measures for the municipal year of 1925:

Total No. Scales	tested, 139,	condemned, 4
“ Weights,	“ 228,	“ 2
“ Dry Measures	“ 0,	“ 0
“ Liquid Measures	“ 49,	“ 0
“ Yard Sticks	“ 12,	“ 0
“ Automatic Pumps	“ 135,	“ 5
“ Milk Jars	“ 0,	“ 0

Amount paid City Treasurer, \$62.37.

Respectfully submitted,

ERNEST S. ESTES,

Sealer of Weights and Measures.

Report of Assessors

To His Honor, the Mayor, and City Council:

GENTLEMEN:—Herewith is submitted the report of the Assessors for the year ending December 31, 1925.

ASSESSED VALUATION OF CITY.

Real Estate, Resident,	\$3,711,085 00
Real Estate, Non-resident,	3,556,755 00

Street Commissioner's Report

To the Honorable Mayor and City Council:

GENTLEMEN:—I herewith submit the following report of the Street Department for the year ending December 31, 1925.

STATE ROAD WORK

1300 feet of asphalt road on Conant St., which finishes to the Gorham line.

265 feet asphalt road on Main Street from Saco Street to Conant Street.

300 feet stone road on Brown Street from Cole Street to turn on Brown Street.

1200 feet Asphalt road on Cumberland Street to R. R. crossing of the S. D. Warren Co.

750 feet stone road on Glenwood Ave.

1000 feet new gravel road on Middle Street, 40 feet wide.

1500 feet stone road on North Street. 1500 feet gravel road on same street.

500 feet stone road on Warren Avenue, opposite Warren Church.

750 feet stone road on Lamb Street.

750 feet stone road on Forest Street.

750 feet stone road on Mason Street.

Widened Stroudwater Street 8 feet, from Hawkes Street to Portland line; also resurfaced a large part of this street.

Resurfaced Spring Street, from the B. & M. Railroad to the County Road.

Repaired Austin and Brook Streets, from the Murray House to Pride's Corner.

Repaired East Bridge Street, from Riverton to the Murray House.

Repaired Saco Street, from Main to the Stroudwater Bridge.

Resurfaced Mechanic Street, from East Valentine to the upper end of the street.

Repaired Central Street, from Main to East Valentine.

Repaired Valentine Street, from Spring to Saco Sts.

Repaired Pleasant Street, from Main Street to Files Street; also Files Street to Stroudwater Street.

Reshaped and repaired Haskell, Rochester, Warren Avenue to Portland line, Bridge, Pierce, Cumberland to four corners, Forest, Seavey, Mason, Waltham, Tolman, Berkeley, Oak and Clifford Streets.

The following streets received a coat of 80% Asphalt Oil: Brown, from Cole to Cumberland; Haskell, from R. R. track to Richardson's House; Lamb, from Main to Gray; Stroudwater, From Maine to Kenneth Stone's residence; Spring, from Main to Valentine; Central, from R. R. track to top of hill; Mechanic, from R. R. to top of hill; Saco, from R. R. to East Valentine.

SEWERS AND DRAINS

A new sewer was constructed on Forest Street extension, 496 feet long, 20-inch pipe; Prince Street, 528 feet, 18-inch pipe.

3 new manholes rebuilt, and repaired 11 manholes, built 6 new catch basins, put in 96 new drains and culverts in different parts of the city, also general repairs on drains and sewers.

SIDEWALKS

196 feet new sidewalk on Main Street, from Saco to R. R. track; also 196 feet cement curbing for same.

55 feet on North Street with cement curbing for same.

180 feet crushed stone sidewalk on Burton Street.

400 feet crushed stone sidewalk on Sargent Street.

150 feet ash sidewalk on Brown Street.

Also repaired and put in good condition all brick sidewalks in the city.

CINDERS

We wish to thank the S. D. Warren Co. for 800 loads of cinders which were a great saving to the city in the early Spring.

CITY EQUIPMENT

Four horses, 3 2-horse dump carts, 1 1-horse dump cart, 3 sets 2-horse sleds, 1 1-horse sled, 2 street sprinklers, 1 road machine, 3 2-horse graders, 6 sidewalk snow-plows, 1 tractor snow-plow, 1 steam roller, 3 Ford 1-ton trucks, 3 tar kettles, king drags, stone crusher, 1 steam drill, 1 jack drill, 5 sets single harness, 4 sets double harness, picks, shovels, bars, drills, sewer rods, etc.

Respectfully submitted,

FRED A. BODGE,

Street Commissioner.

Report of the City Physician

January 28, 1926.

To the Mayor and City Council:

GENTLEMEN:—My report for the year 1925 is as follows.

I have made 164 calls on the wards of the city, 111 of them at house or at City Farm, also one confinement. There have been three deaths at the City Farm from chronic diseases of long standing.

The general health of the inmates has been exceptionally good, due largely to the sanitary cleanliness observed and the good food provided. Mrs. Moxcey maintains a good discipline and the inmates respect and like her.

Respectfully submitted,

FREDERICK E. WHEET, M. D.,

City Physician.

REPORT OF THE Plumbing Inspector

WESTBROOK, ME., Feb. 9, 1926.

To the Honorable Mayor and City Council:

The plumbing work for the year 1925 was done in 33 new houses, 29 old houses and 2 remodeled, which consists of the following fixtures installed:

Flush closets,	113
Bath tubs,	59
Lavatories,	71
Set trays,	16
Sinks,	47
Refrigerators,	4

The roof drainage from about all the new and a number of the old houses has been connected to the sewer with cast-iron soil pipe.

Where the plumbing work was done in old houses the sink traps were replaced by non-syphon traps.

Respectfully submitted,

JOHN W. OUELLETTE,

Plumbing Inspector.

Report of Committee on Licenses

To the Honorable Mayor and City Council:

GENTLEMEN:—The Committee on Licenses beg leave to submit the following report for the year 1925:

School Board for 1926

MEMBERS

- Ward 1—Paul F. Fraser, 11 Waltham Street
Term expires Dec. 31, 1928.
- Ward 2—Harry W. Saunders, 44 Stroudwater Street
Term expires Dec. 31, 1926.
- Ward 3—Florido Fortin, 59 Church Street
Term expires Dec. 31, 1927.
- Ward 4—John R. Fortin, 339 Brown Street
Term expires Dec. 31, 1927.
- Ward 5—Edwin L. Brown, 140 Cumberland Street
Term expires Dec. 31, 1926.
- At Large—Oscar A. Fick, 12 Monroe Avenue
Term expires Dec. 31, 1928.
- At Large—Paul H. Smith, 30 Monroe Avenue
Term expires Dec. 31, 1927.
-

ORGANIZATION

Chairman—Harry W. Saunders.

Secretary—W. H. S. Ellingwood.

SUPERINTENDENT OF SCHOOLS:

W. H. S. ELLINGWOOD.

Office, 580 —Telephones— Residence, Westbrook 312

Office—High School Building, Room 15.

Office Hours of Superintendent—8.30 to 9.30 A. M.,
and 4 to 5 P. M., Mondays. Other hours by appointment.
Office is open: School days, 8 to 12 A. M.; 1.30 to 5 P. M.;
Saturdays, 8 to 12 A. M.

Regular meeting of the School Committee the fourth
Monday of each month, at 7.30 P. M., in the Superinten-
dent's office.

Attendance Officer—William F. Bishop.

SUPERVISORS

High School—The Committee, Mr. Saunders.
Bridge Street—Mr. Smith, Mr. J. Fortin.
Forest Street—Mr. Fraser, Mr. Brown.
Warren School—Mr. Saunders.
Brown Street—Mr. J. Fortin.
Valentine Street—Mr. Fick.
Saco Street—Mr. F. Fortin.
Rocky Hill—Mr. Brown.
Highland Lake—Mr. Smith.
Pride's Corner—Mr. Fraser.

SUB-COMMITTEES

Teachers, Instruction and Conveyance — Messrs. Fraser, J. Fortin, Saunders.

Rules, Regulations and Discipline—Messrs. J. Fortin, Brown, Fick.

Text Books, Supplies and Course of Study—Messrs. Saunders, Fraser, F. Fortin.

Janitors, Fuel, Heating and Ventilating, Power and Light—Messrs. F. Fortin, Brown, Fraser.

School Houses, Grounds, Hygiene, Sanitary Regulations, Telephones—Messrs. Brown, J. Fortin, Smith.

Finance and Statistics—Messrs. Fick, Brown, Saunders.

Physical Training, Cooking and Sewing, Commercial —Messrs. Smith, Fraser, F. Fortin.

Manual Training and Industrial School—Messrs. J. Fortin, Smith, Fick.

CALENDAR

Fall Term begins September 14, 1925. Fall Term ends December 18, 1925.

Winter Term begins January 4, 1926. Winter Term ends February 19, 1926.

Easter Term begins March 1, 1926. Closes April 16, 1926.

Spring Term begins April 26, 1926. Spring Term ends June 18, 1926.

The following holidays will be observed: Armistice Day, November 11; Thanksgiving Day and the day following; Washington's Birthday, February 22; Patriots' Day, April 19; Memorial Day, May 30.

STORM SIGNALS FOR NO SCHOOL

Eight blasts of the fire whistle at 7.15 A. M. will be the signal for no school in the High School and grades below for the forenoon.

Eight blasts at 8 A. M. will be the signal for no school in all grades below the High School for the forenoon.

Eight blasts at 12.30 P. M. will be the signal for no school in the afternoon.

When the no school signal does not sound at 12.30, the grades and all afternoon High School classes will be in session.

REPORT OF THE Superintendent of Schools

To the School Board and Citizens of Westbrook:

I wish to present to you my third annual report of the public schools of our city.

The usual reports of the principal of the high school and supervisors are included. They are worthy of your careful attention.

TEACHERS

During the summer vacation, Mr. Waldo Flinn, Misses Ethel King, Marion E. Lord, Beryl E. Cram, Grace E. Johnson, and Edith L. Harvey, all of them high school teachers, resigned. Misses King, Lord, and Cram are teaching in other school systems. Misses Johnson and Harvey are married; and Mr. Flinn is in Harvard University. These teachers were efficient teachers and we regretted to have them leave us.

Mr. Newman Young, Misses Pauline Abbott, Lucille Davis, Vera Eldridge, Isabelle K. Pease, and Ethelyn M. Percival were secured to fill the vacancies caused by the resignations of the above mentioned teachers. They all came to us highly recommended and are doing excellent work. They are all experienced teachers.

Miss Winnifred Mansur, a teacher of the fourth and fifth grades in the Forest Street School, resigned; Miss Mansur is not teaching this year. Miss Mary E. Foley, of South Portland, was secured to fill Miss Mansur's position. She is a young teacher with only one year's experience, and has a large and difficult school. She is a growing teacher and is doing her best.

Mrs. Thelma D. Flinn, teacher of the sub-primary and first grades in the Saco Street School, resigned to accompany her husband to Cambridge. Miss Ruth M. Blake of Portland is carrying on the work very satisfactorily, although it is her first year out of Normal School.

Another room was finished off in the Rocky Hill Schoolhouse. The third and fourth grades were assigned to this room, and Miss Grace I. Dunton was secured as teacher. Miss Dunton has had one year's experience and is doing excellent work.

Mrs. Josephine Pratt Crane, teacher of the Highland Lake School, resigned on account of the sickness of her husband. Miss Gladys E. Rogers was secured to take her place. Miss Rogers is one of our most promising teachers and is doing good work.

Mr. Joseph C. Given was secured to fill the vacancy caused by the resignation of Mr. Percy Allen, teacher of Manual Training. Mr. Given has had eight terms of experience and came highly recommended. We expect him to strengthen this department.

Miss Martha Wasson, Music supervisor, resigned and accepted a similar position in the Gorham Normal School. Miss Esther M. Stevenson, of Rockland, was secured to fill the position. Miss Stevenson is an experienced teacher and is doing good work.

Westbrook may well take pride in the quality of its teaching force. As a whole, they are not only well trained and experienced but, still more important, they have character and a true-hearted interest in the lives of the pupils. Whatever improvement may have been made in our schools during my term of office with you is due largely to the teachers.

Whenever school officials come from larger school systems, where they can pay much larger salaries than we can, and want to take our teachers, we cannot help but feel a little flattered to know that we have teachers that they want. We cannot expect to compete with the larger and richer cities in salaries. Westbrook pays good sal-

aries and has good teachers. When we lose a good teacher we ought to be able to secure another to take her place. We receive many applications each year. Our location is a great asset in securing and retaining teachers.

BOOKS AND SUPPLIES

We are constantly adding new books and supplies as our money will permit. New Histories have been put into the fourth, fifth and sixth grades. New Historical and geographical readers have been put into the third grade. Several new sets of readers have been added. A new set of reference books has been put into the Bridge Street School. Several supplementary histories for reference work have been placed in the upper grades. A new set of reference books has been ordered for the Forest Street School. Several maps have been added to our equipment, more are needed and will be purchased this year. Several different devices, known as busy work, have been introduced in the lower grades. These devices are to help teach reading, spelling, arithmetic, language, etc. The idea is to make the work more interesting to the pupils and easier for the teachers.

HEALTH WORK

Much credit is due Dr. Hall and Mrs. Wilson for their efforts along this line. They are untiring in their endeavors to improve the physical condition of the pupils and much of the increase in attendance for the last three years is due to their work. We refer you to their report.

IMPROVEMENTS AND REPAIRS MADE

A much needed additional room was finished off in the Rocky Hill Schoolhouse and another teacher employed for the same. This improvement will add much to the efficiency of this school. Each teacher now has two grades and a reasonable number of pupils.

Lights have been installed as follows: In two rooms in the Forest Street, in two rooms in the Bridge Street, and in seven rooms, corridors and ante-rooms of the High School. Several rooms and corridors have been rewired

so as to avoid running so many lights when only a few are needed. Although so many more lights have been added, the expense of running them has not increased as teachers and janitors have co-operated to keep the expense as low as possible. Doubtless the expense must be a little more in the future, but it will be money well spent. Many of the pupils and a few of the teachers were being subjected to eye strain. The efficiency of the pupils in several rooms was lowered for the want of light. Every schoolroom in the city and Pride's Corner has, or soon will have, electric lights.

Telephones have been installed in each city school building, thus adding much to the convenience of all concerned.

Quite extensive repairs and improvements were made in the Forest Street and Pride's Corner School buildings. Many minor repairs were made in each of the other school buildings.

Slate blackboards were installed in one room in the Warren School building and also in one room of the Pride's Corner School building.

New tables are being made for the cooking room. The material for these tables has been paid for from the fund of the Cooking Department and the tables are being made by the Manual Training Department.

REPAIRS AND IMPROVEMENTS NEEDED

Quite extensive repairs are needed in the High School, Warren School and Valentine School buildings. The Rocky Hill Schoolhouse needs painting on the outside, and some of the woodwork needs repairing. The Pride's Corner Schoolhouse should have four windows installed on the North side. This house is very poorly lighted. Several trees, that are shutting out much needed light, should be removed from the school yards of both Pride's Corner and Brown Street. Other trees should be trimmed. We need the daylight much more than we need the shade, in fact, the shade is just what we do not want here.

ENROLLMENT AND HOUSING

By comparing the Enrollment Tables for 1924 and 1925 (see another page) you will discover that our enrollment for 1925 is 158 more than for 1924. This increase is distributed as follows: Bridge Street, 7; Brown Street, 34; Forest Street, 65; Rocky Hill, 19; Saco Street, 53; Valentine Street, 10; High School, 30. The schools having a smaller enrollment for 1925 are as follows: Highland Lake, 2; Pride's Corner, 1; Warren School, 9.

Last year, 1924, the Warren School and Forest Street School were overcrowded and the city was rezoned. During the summer vacation several families moved, leaving a smaller number than we had assigned to the Warren School. The sub-primary and first grades of this school are large this year, so that the second grade will be large in this school next year and the building will be filled to capacity.

We assigned quite a large number of fifth grade pupils, who might have attended the Forest Street School, to the Brown Street School, hoping to thus relieve the former, but in spite of this assignment the Forest Street School had an increase of sixty-five (65) pupils. This school was already overcrowded. Something must be done to relieve the congestion in this building. There are ninety-eight (98) more pupils in this school than in the Bridge Street School and one room and one teacher less to take care of them. This is not fair to either teachers or pupils. The teachers of this school have an average of fifty-one (51) pupils, while the teachers in Bridge Street have an average of thirty-five (35). This is not just to the pupils, teachers, and parents.

We have excellent teachers in each building, but the Forest Street teachers and pupils are working under a great handicap. No teacher in any grade ought to have more than thirty-five pupils and this is especially true below the fourth grade.

Parents and pupils do not like to have the pupils transferred from the Forest Street School to another

school. We do not know of any school to which they can be transferred after this year, as all the other schools near will be filled. Fifteen or twenty of the fifth grade might be transferred to the Warren School this year. We need four more rooms at once to suitably house the pupils now attending the Forest Street School. Each teacher would then have thirty-five pupils.

Our next greatest need is more room in the High School, which registers thirty (30) more than last year. By looking at the Comparative Enrollment Table since 1908 (page 78) you will see that since 1919 we have increased from two hundred thirty-one (231) to three hundred forty-one, or, in other words, we have increased one hundred ten pupils in six years, but have not increased the number of teachers. This means that classes are becoming too large for efficient work. The cost per pupil registered, based upon teachers' salaries, fuel and janitor's salary, in 1920 was \$89.66; in 1924 it was \$68.57, or a difference of \$21.09. This is due largely to the increase in the number of pupils.

Something will have to be done in the immediate future to relieve this congestion. We simply do not have seating room for so many pupils. As nearly as we can foretell the future, we shall have from thirty to forty more pupils in the High School next year than we have this year. We should have at least two more rooms and two more teachers and must have at least one more room and one more teacher.

The only way we can see to get along with the present rooms and teachers is for the upper three classes to attend school in the forenoon and the Freshman class to attend in the afternoon. This arrangement would mean more teachers, or longer hours for the present number.

We feel sure that when the condition of the Forest Street School and the High School are thoroughly understood by the citizens of Westbrook, they will meet them and solve them. These schools cannot be expected to keep up to the standard in their present crowded condition.

STANDARD TESTS

We are continuing the use of standard tests. We also give our own local tests. According to all tests given our schools are improving. This improvement is due largely to the teachers. The teacher, to a large extent, makes the school. Its success or failure must be largely due to her.

Each set of tests is corrected, ranked and graphed in our office. These graphs are on file for inspection and reference by parents, teachers, and School Board. Most of the teachers come to the office to go over the results of their tests with the superintendent. We feel that much good is derived from them. They are a valuable aid with which to find our standing with other schools of the nation as well as the comparative standing of our own schools. We should be pleased to publish the results did it not take so much space.

We find our schools up to standard in reading, fundamentals in arithmetic, English vocabulary, and very nearly up to standard in English grammar. We are not up to standard in history, geography and arithmetic problems. We are improving each year and hope soon to reach the standard. We have made our greatest improvement, during the last two years, in reading.

GIFTS

Mr. Nelson R. Davis presented the Forest Street School and Bridge Street School each a cabinet containing glass jars full of pulp and paper making specimens.

Mr. Hale M. Dow gave a four volume set of "Encyclopedia of Carpentry and Contracting" to the High School.

The Westbrook Woman's Club has helped furnish milk for the children who are under weight in the lower grades.

The Business and Professional Women's Club and the Westbrook Woman's Club furnished candy at Christmas time for each child in the elementary schools. This candy

was distributed to the children by Santa Claus and the Superintendent of Schools.

During the Christmas period the school children sold Red Cross health stamps to the amount of one hundred sixty-two dollars and forty-one cents (\$162.41). This sum was turned over to the Red Cross Association.

There are still a few dollars left in the "School Children's Benefit Fund" given by the Decemvir Club a few years ago. This fund has done much to help furnish shoes, stockings, and rubbers for deserving pupils. In many instances it has helped to keep children in school and to lessen absences.

Although it can hardly be called a gift, it comes very near it. We refer to Dr. Wheet cutting down a shade tree and trimming out another that were shutting out light from several rooms in the High School, thus *giving* us more light.

We wish to thank all and to assure them that we appreciate what they have done.

A SUGGESTION

We wish to suggest that a committee, consisting of a representative of each club in the city and the superintendent of schools, be organized to look after the deserving poor children. This would be a committee something on the plan of the "Associated Charities." There are many deserving poor children who might thus be helped and given an opportunity to attend school much more regularly. The parents of such children do not want to pauperize themselves by calling on the city for aid.

We recommend that the superintendent of schools be one of said committee, because by virtue of his office he is brought into close relation with such cases through teachers, attendance officer, nurse and school physician. Hardly a week passes that some deserving case is not called to his attention.

It could easily be worked out so that each club or society could receive credit for what it might give or do.

It seems to the writer that some such an arrangement would be a great help to the schools.

ATTENDANCE

By looking at the attendance report on another page it will be seen that the attendance has steadily increased for the last three years. Last year our percent of attendance for all the pupils was 92.09. For the year 1924 the percent of attendance for the public schools for the whole state was 85.07. Our excellent attendance is due largely to the co-operation of all concerned, viz.: parents, pupils, teachers, attendance officer, nurse and school physician. We shall strive to make it even better.

PARENT-TEACHER ASSOCIATION

We can do no better than to repeat what we said last year. We have only words of commendation and appreciation for this association. For fifteen years we have been associated with parent-teacher associations, but we have never been associated with one which did better work than the Westbrook Association is doing. It is a live, active force in the community that makes itself felt. We appreciate the work this society has done and is still doing. It opens up another means of getting parents, teachers, and school officials together. It is a means of education as well as a source of entertainment.

JANITORS

We were shocked and grieved one day in the early spring to hear of the sudden death of Mr. Ernest B. Rackleff, janitor for many years of the Forest Street School. He had been a faithful janitor and was respected and loved by teachers and pupils.

Mr. Charles E. Pillsbury was engaged as janitor for the Forest Street School and is doing excellent work.

Mr. Andrew Arsenault, for many years janitor of the Brown Street School, resigned during the summer. Mr. L. A. McLaughlin of Brown Street was engaged to take his place.

We have a good force of janitors and they are doing much to make our schools successful. No pupil can do his best unless he is physically comfortable.

CLOSING

We are constantly striving to improve our schools. From the many tests given and in frequent visits to the schools, when they are in session, we believe a steady advancement is being made. As we have said before, whatever improvements are made must be made largely through the co-operation and work of the teachers.

I want to thank all, citizens, teachers, and members of the School Board, who have in any way helped to improve the schools.

Respectfully submitted,

W. H. S. ELLINGWOOD,
Superintendent of Schools.

Report of the Principal of the High School

W. H. S. Ellingwood, Superintendent of Schools, Westbrook, Maine,

DEAR SIR: I hereby submit to you and thus through you to the School Board and the citizens of Westbrook, my report for the year just ended.

Changes in a high school faculty are inevitable. They usually take place slowly and are anticipated. This year we had a large number, some of which were not expected. Mr. Waldo Flinn, sub-master and athletic director, resigned, after three years of remarkable success, to enter the Harvard School of Business Administration. Mr. Milton Philbrook of the faculty was promoted to sub-master, and Mr. Newman H. Young, a graduate of the University of Maine in the class of 1921, was elected athletic director. He has had two years' successful experience teaching and coaching at the Abbott School, Farmington, Maine. Miss Marion Lord, Miss Beryl Cram and

Miss Edith Harvey, all of the English Department, resigned, Miss Lord to accept a position in the English Department of New Bedford High School, Miss Cram to teach in Cohasset High, Massachusetts, and Miss Harvey to get married. The work of these teachers, especially that of Miss Lord in public-speaking and dramatics, is too well known to require any elaboration here. The vacancies caused by the above resignations were filled by the election of Miss Isabelle Pease of Portland, Miss Lucille Davis of Ocean Park, Me., and Miss Vera Eldridge of Amherst, Mass. Miss Pease, now head of the department, is a graduate of Smith College, class of 1923, and has had two years of successful experience in Somersworth, N. H., High School. Miss Davis graduated from Bates in 1924 and taught a year in Bradford, Vermont, and was highly recommended. Miss Eldridge is also a Bates graduate in the same class with Miss Davis and has taught one year in Fort Fairfield, Maine. When the fall term began Miss Eldridge was unable to be present because of illness and Mrs. Ralph George of Portland was obtained as a substitute, a position which she filled until after the Thanksgiving vacation. The work in public-speaking and dramatics has been somewhat delayed by Miss Eldridge's inability to report on time.

Miss Grace Johnson, after teaching here four years, resigned to get married. Her place as a teacher of history and civics was taken by Miss Pauline Abbott of Waterville, a graduate of Colby College in the class of 1921. Miss Abbott has had four years' successful experience in Lisbon Falls High and Kennebunk High.

Miss Ethel King, for several years a teacher of French and Latin, resigned, and is now teaching in Lewiston High School. Miss Elizabeth Whittier of the faculty took over the work of Miss King in the languages, and Miss Ethelyn Percival of Bangor, a graduate of the University of Maine in the class of 1924, was engaged to teach the mathematics formerly taught by Miss Whittier. Miss Percival previously taught in Milo High School, Milo, Maine. She is a member of the honorary society of Phi

Beta Kappa, and while in college was instrumental in organizing a chapter of the sorority of Delta Zeta, the basis of membership of which is high scholastic standing.

Miss Wasson's resignation as teacher of music resulted in the election of Miss Esther Stevenson of Rockland, Maine. Miss Stevenson is well qualified by training and experience to carry on the work, and is meeting with gratifying success.

Mr. Percy Allen of Sanford, who taught in the Industrial Department last year, was replaced by Mr. Joseph Given of Gorham. Mr. Given's work in this department is proving very satisfactory.

The new teachers have all taken hold of their work in a spirit that deserves commendation. They all came highly recommended and are living up to the good reports sent in by former superintendents and school officials. The complete list of faculty members appears as a part of the Superintendent's report.

The registration for the school year 1925-26 is the greatest in the history of the school. At this writing 342 pupils have been in attendance, as compared to 319 the previous year. The average attendance for the fall term was 328, a total of twenty more than the fall before.

The tabulation below shows the registration by classes.

	<i>Boys</i>	<i>Girls</i>	<i>Totals</i>
Seniors	35	32	67
Juniors	24	38	62
Sophomores	57	46	103
Freshmen	57	53	110
	<hr/>	<hr/>	<hr/>
Totals	173	169	342

The enrollment by courses is as follows:

	<i>Boys</i>	<i>Girls</i>	<i>Totals</i>
General	27	15	42
College	55	56	111
Commercial	30	98	128
Industrial	61	0	61

It may be of interest to know that of the pupils in the school the number taking English is 341, mathematics 279, history 151, science 105, French 117, Latin 66, mechanical drawing 62, manual training 31, machine shop 60, woodwork 18, pattern shop 10, bookkeeping 71, office practice 23, typewriting 64, shorthand 37, penmanship 153, art 50, domestic science 34, commercial geography 56, music 135.

The registration at this writing, Feb. 1, 1926, shows:

	<i>Boys</i>	<i>Girls</i>	<i>Totals</i>
Seniors	34	32	66
Juniors	23	37	60
Sophomores	52	45	97
Freshmen	46	50	96
	<hr/>	<hr/>	<hr/>
Totals	155	164	319

The situation as to numbers now demands seriously considering an increase in the size of the faculty. Larger classes, more divisions and the unsatisfactory crowding of the study room require the presence of a larger teaching force. The school is operating pretty nearly at full capacity now, and the congestion next year will be greater than it is at present. The addition of one more teacher and the placing of desks in room No. 24 will do much to relieve the generally crowded home rooms and class rooms. The city is rapidly approaching the time when it will have to embark upon a building program to take care of the increasing school population. It is almost axiomatic that the High School will never be any smaller than it is at present; and it has just about reached the natural limits of expansion under the existing facilities. It is possible to benefit the general situation somewhat by the addition of another teacher, but after a school has outgrown its plant the presence of more teachers solves no difficulties.

The following table shows the increase in attendance since 1920:

<i>Year</i>	<i>Registration Fall Term</i>
1920	231
1921	249
1922	271
1923	280
1924	316
1925	341

This increase in numbers during the past few years without an increase in the faculty has rendered it necessary to simplify the schedule by omitting certain subjects and rearranging classes in others in order to arrive at a workable routine. To explain all that has been done to meet the difficulties incident to a constantly increasing High School attendance would require more time and space than can be devoted to that purpose here. Let it suffice to say that the greatest single step was a revision of the course of study, without which it would have been impossible to make out a schedule for the current school year.

Athletics, under Mr. Young, are being handled in a manner to give satisfaction to all. Under his coaching and that of Mr. Paul Fraser the football team enjoyed a very successful season. The newspapers insist on calling Mr. Fraser assistant coach, but it is desired to remind the public that Mr. Fraser's work with the teams has always been purely voluntary and gratuitous on his part, and has been done because of his interest in boys and in sport, and not with the expectation of recompense in a financial way. It is needless to say how greatly this is appreciated. At the close of the football season last fall a group of interested citizens gave the letter men of the team a banquet at the Columbia Hotel and an evening at Keith's Theatre. The outlook for good teams in basketball and baseball is favorable. The girls' basketball team is being coached again this year by Mr. Philbrook and it is gratifying to state that the girls are making a creditable showing.

My report last year was practically all given over to the publication of the course of study. This was also

published in the school paper, *The Blue and White*. The revised course of study is in full effect as regards the lower two classes. No attempt has been made, of course, to apply it to the present Senior class, nor to the Junior class, although most of the Juniors could qualify under it without embarrassment. In view of the fact that the course of study has had so much space devoted to it in the recent past no attempt will be made to include it as a part of this report.

The school contributed again this year as in former years to the District Health and Nursing Association. A contribution was also taken up to add to the fund being collected all over the nation for the purpose of re-conditioning the "Old Ironsides."

I can not allow this opportunity to pass without expressing my own appreciation and that of the teachers for the installing of lights in rooms 11, 12, 13, 14, 16, 21 and 22. This, plus what was done last year, leaves but little to be desired in the way of lighting in Westbrook High School.

Again it is desired to express the appreciation of teachers and students for the courtesies and co-operation extended by the public library staff. Our school library is growing slowly, and is becoming of increasing value. The class of 1925 made a gift of five useful books, also Mr. Hale Dow added four books as a gift that is gratefully acknowledged. Numerous books have been added through purchase by the Superintendent's office. The boys of the Industrial Department have just completed a large book-case, which adds a great deal to the facilities of the library.

The teachers of the High School wish to thank the pupils and parents and the school officials for the many courtesies extended to them throughout the year.

In accordance with the custom of past years the graduation program and the list of graduates for the year 1925 is included as a part of this report; and the names of the members of the entering class are also printed here-

with in order that the names of those graduating and those entering may be a matter of record available to the public.

Respectfully submitted,

JAMES A. LEWIS.

Of the above named 14 have left school and the total now is 46 boys and 50 girls.

Report of the Director of Industrial Arts

Mr. W. H. S. Ellingwood, Superintendent of Schools,

DEAR SIR: I herewith submit my second annual report of the Industrial and Manual Training Departments.

We are at present departing somewhat from the manual training idea and working out what I will call a general shop. By so doing the pupils in the seventh and eighth grades will acquire not only a knowledge of wood and woodwork, but will be given an insight into several different trades and industries. This is accomplished by allowing each boy to work out, in the course of a year, twenty or thirty different problems of a simple nature, such as setting glass, wiring electric bells, repairing holes in plaster, painting, packing leaky water faucets, etc.

The second year exercises are somewhat more difficult including some machine work.

During this period an accurate record of the boy's abilities along these different lines is kept so that when he comes to the High School and wishes to choose his course, it is possible for him to tell at once by his rating in these shop problems whether or not he has any mechanical ability.

The first year High School pupils are given general woodwork, by which I mean carpentry, also the construction and repair of furniture. Simple sheet metal and forging are given during this year. Cabinet making is offered to all Freshmen, whatever their course.

The second year pupils in the industrial course are given simple machine shop problems. After January, 1926, this will be supplemented by a course in Auto Mechanics.

The third and fourth years are distinctly vocational with the definite aim of fitting each boy for his place in industry. This course is designed to meet the federal and state requirements, as it is from these sources that we receive a large percentage of our financial support.

The mechanical drawing courses during the first two years are somewhat general to give the pupils a working

knowledge of principles. The last two years drawing is worked out to have a definite relation to the shop.

Boys taking this course have a distinct advantage over those who learn their trades in the industries, as they see the work from start to finish. In the drafting room they are given an opportunity to work out the designs; in the pattern shop to make the patterns. They go to the foundry and see the castings made, then finish them in the school machine shop.

Very few cities of the size of Westbrook are giving the boys the advantages of trade education and it is not to be wondered at that more and more boys are taking this course each year.

I believe that we have at this time in both the machine shop and manual training shop as efficient teachers as it is possible for us to obtain.

I wish to take this opportunity to thank all those connected with the school system and also the parents and pupils for their co-operation during the past year.

Respectfully submitted,

AUSTIN ALDEN.

Report of the School Nurse

To Mr. Ellingwood and Members of the School Board:

The following report covers from September 15, 1924, to June 18, 1925.

Yearly examination covered September, October, and November.

The usual "Schick-testing" was done. In addition to what has been done in the past two years about one-half of our school children are immunized against Diphtheria.

We had milk in the lower grades. Financed by the "Westbrook Woman's Club."

A fund has been furnished whereby we have been able to carry on a "Dental Clinic" yearly. More money is needed. There are many families who are unable finan-

cially to care for their children's teeth after their living expenses have been met. Many of these families would never think of asking for aid. They are deserving and should have it. It is important that children should be taught and trained to care for their teeth when small for two reasons, "Health and Appearance."

From a certain amount last year we were able to take care of the "eyes."

Next year there will be new frames and retesting for the children whose eyes were fitted four and five years ago. More money will be needed.

Through the "Out-Patient-Department" of the Maine General Hospital and Maine Eye and Ear Infirmary we were able to take care of the "Nose and Throat" cases.

Following is the result of the yearly examination:

Number of defective hearings,	5
Number of defective or abnormal throats,	160
(Number of throats attended to, 37)	
Number of defective teeth,	499
(Number of children to dental clinic, 401)	
Number of defective eyes,	56
(Number of defective eyes remedied, 41)	

From the dental clinic \$20.15 was received. Each visit is 15 cents if they can afford it. About one-third of the children pay.

The money was used for "milk" and glasses.

I wish to thank Mr. Ellingwood, the School Board, Mr. Bishop, and all of the teachers for their friendliness and co-operation in the work.

No "Public Health Work" could fail with this spirit behind it. It is true that the "Child of Today" is the "Man of Tomorrow." So it must follow that the Healthier the child of today is, the Healthier will be the man of tomorrow.

Respectfully submitted,

(MRS.) ETHEL B. WILSON, R. N.,
School Nurse.

Report of the Supervisor of Music

To Mr. W. H. S. Ellingwood, Superintendent of Schools,

DEAR MR. ELLINGWOOD: The following is my music report for 1925:

In the first three grades the foundation for future work is laid. The child is taught to love music, and to love to sing, by songs that express purpose. A tone vocabulary and a feeling for tonality and rhythm is established which later proves indispensable to the child.

Beginning with the fourth and continuing through the sixth grade formal tone and time drills are given. Problems to be mastered in these grades are presented in carefully arranged songs and exercises which gradually proceed from the known to the unknown. Two part singing is introduced in the last of the fourth grade and the first of the fifth grade. Three part work is introduced in the sixth grade.

Chorus singing is featured in the seventh and eighth grades and many beautiful songs are studied.

Music appreciation, which is a very important part of our work, is started in the lower grades and continued through the upper grades. With the very short time allotted to music in the grades it is only possible to touch upon the most important phases of this work.

There are seventeen in the Senior Grade Orchestra this year. The Junior Grade Orchestra is to be organized the last of this month. Students must play one year in the Junior Grade Orchestra before they are eligible for the Senior Grade Orchestra. Miss Esther Libby has a very promising class in violin.

The High School Chorus numbers one hundred and thirty. This course is elective and students receive one-half point credit for the year. The High School Orchestra has a membership of twenty who are working hard and making good progress. Students receive one-half point credit for orchestra. The High School Trio practice faithfully once a week and have played several times at the

Parent-Teachers' Meetings this year. The Girls' Glee Club is a newly organized club this year. It is limited to the Junior and Senior girls. It is a small organization but the girls are progressing and showing a great deal of enthusiasm.

On account of the overcrowded conditions at the High School there is very little chance for assembly singing. This I hope in time can be remedied, so that we can have at least one period a week for assembly singing. I would suggest that to the school curriculum be added a four-year course in Music Appreciation and Harmony with a half point credit for each year. Many students on completing their High School course are planning to continue the study of music. We should offer them the same opportunity in High School that we offer the student who is going to college or who is planning to take up secretarial work.

In closing, I wish to thank the Superintendent, School Board, and Teachers for their interest and co-operation.

Respectfully submitted,

ESTHER M. STEVENSON,
Supervisor of Music.

Report of the Supervisor of Penmanship

W. H. S. Ellingwood, Superintendent of Schools,

DEAR SIR: I do here submit a report of the Penmanship and Art Departments in the public schools of Westbrook.

Penmanship is a study of much importance in our public school system. Every child must be able to express himself not only verbally but also thru the written word. There are but two modes of expression, that of the written and spoken word. It is highly important then that your child and my child should practice and perfect this as a vital part of his education. Penmanship is the Life and Soul of Commerce, Industry, and Correspondence; by the

use of it we manage our affairs at the greatest of distances, and with all the secrecy imaginable. It is the messenger of the thoughts, and the key to the liberal arts and sciences; speaking, in short, is vocal thought only; thinking is nothing more than silent speech, but writing is the character of them both.

In my teaching of the subject of Penmanship in the Westbrook schools I wish to say that I am not training the child to become a pen artist of the flourish type, but rather my constant aim is to produce students that when placed in the business world, may be able to express themselves by written word in terms of Legibility, Rapidity, Ease, and Endurance.

Let me state here that no system of Penmanship can be developed in one year or even two. If you are going to allow first one method and then another to be introduced into your school system, it is far better and only just to the teacher and child to let them write as they will. It is like any system that may be introduced by an industrial plant. It must be studied from all angles, and with the public school system the child's, teacher's and citizen's welfare must be taken into the final scheme, in order that a system may spell success. It is only thru the years of growth with the child and teacher as they pass from grade to grade that we are able to observe this.

My first year was spent entirely in Corrective Work. After a careful study and teaching we arrived at the following figures at the termination of the school year. Five hundred and fifty-two corrected positions, including a standard legible hand writing. Three hundred poor positions remaining, of eligible writers who yet require much training, and a remaining group of twenty left-handed writers. With this year's work I feel that the first group will be doubled and the remaining two greatly diminished. There is still a great call for real training.

Art education in the public schools is progressing with astonishing significance. Today marks the age of Mercantilism for America. Industry, with its keen competition, demands only the very best. Merchants and

manufacturers are crying aloud for the very finest of Craftsmen, and Designers. Today we realize that this training starts in our public school system. Art for a long time suffered in our schools because of misrepresentation and incorrect teaching. The old time, so termed, drawing teacher has long passed out of existence. In that place today we have the Art instructor training the child for expert industry, business, and home life.

If one could see the great enthusiasm registered by each child in the art classes, one would realize the great possibilities of these pupils. We must train the aesthetic side of a child's life; thru negligence of this he becomes a human machine; a citizen of mediocre ability. America realizes as never before that her success in manufacture and trade lies in the training of her craftsmen, a thing that the old world has long trained its youth in down thru the ages.

This year I have introduced a high school art class, which is elective; a course that long should have been a part of the High School curriculum. The greatest of interest was shown and as a result a class of fifty report for training each Wednesday. Not only has the enthusiasm of the student been aroused in the classroom, but it has been carried on into the home.

Each student is taking a course in House Planning, Building and Furnishing. Such things are considered as selection of a lot for building, advantages and disadvantages of such a lot, types of houses, necessary rooms, size, location, exterior finishes, climatic conditions, color schemes, furniture, periodic types, suitability as to use in present home, rugs, hangings, and wall papers.

All this includes visits to some of the finer shops carrying house furnishing materials. This course includes also classes in book making, designing, color harmonies, tooled leather, modeling, cast drawing, oil painting and rapid life sketching.

I wish to give much of the credit of the results of my work to the grade teachers. I have always found them ready and willing to do their best in the things that I have

from time to time presented. These teachers are hard and conscientious workers who day after day constantly train your child.

I have found the Westbrook children excellent to work with. Such a fine group of girls and boys should be an inspiration to any teacher. It is my constant delight and joy to be in the classrooms at work with them.

I regret that the time is so limited. This system is so large that it should require a supervisor for each subject, or at least I should have an assistant. Other cities of less size than this employ a supervisor for each subject. At present I am putting every minute of my time into this work that I may follow a heavy schedule. With thirty-eight grades to visit once a week, twenty minute periods, two subjects to teach, and five High School classes twice a week, one may easily see how little can be done. Much of this time too is taken up in travel from one school to another. (It is constantly a rush for time in order to meet classes at the appointed hour.) For these reasons the work is greatly handicapped. There is a great deal to do, and each student and teacher is very enthusiastic, but the time problem is yet to be solved. It is my desire to give to the citizens and boys and girls of Westbrook the best that I have to offer, but, as is well known by all, to do anything that has a real value in life requires careful planning and TIME for presentation.

Persons desiring an idea of just what is being done in our public schools in Penmanship and Art should visit my classes. It is here that one sees the child in training. I am always glad of the interest created by visits of the parents. An opportunity to see the results of the child's efforts will be given in May at an exhibit which is now being planned.

In conclusion, I want to thank the superintendent, teachers, and all who, by their effort and earnest co-operation, have aimed to make the work of my departments a success.

Respectfully submitted,

ANSEL B. STERLING.

Report of the Department of Home Economics

To Mr. W. H. S. Ellingwood, Superintendent of Schools:

The program as printed in detail in the City of Westbrook Annual Reports for 1924 has been carried out this year. Many of the classes are larger than is desirable, but they are displaying a helpful, enthusiastic spirit and doing very creditable work.

If possible, some provision should be made whereby more girls of the Freshman and Sophomore classes could be accommodated. This year several of the Sophomores who signed for the work could not be admitted and there is also a long waiting list of Freshmen, which means that next fall a similar condition is assured.

The National Live Stock and Meat Board of Chicago offered state and district prizes for the best meat story written by a high school student. Miss Barbara Leighton won the second Maine prize of ten dollars. This is the second year that a prize has come to Westbrook, Miss Olive Pride being the winner last year when only one prize was offered for the state. Westbrook classes meet once a week, whereas in most high schools they meet three times a week, if not every day.

Some greatly appreciated equipment has been added, including two sewing machines, Congoleum rugs and splendid lights for the sewing section. All were much needed and are proving most satisfactory.

The greatest needs for the future are a ceiling over the sewing section, new lighting over the cooking section, and a bed and bed-clothing to be used in teaching care of the bed and bed-room, and home nursing, in which the school nurse and the home economics instructor would co-operate. Such a bed could also be used in emergencies. At present if a pupil or teacher becomes suddenly ill or faint there is no way to be made comfortable until such time as it is possible to start for home. Such emergencies occur several times each year.

Home Economics experts are advocating very strongly courses in Health Education and in Child Train-

ing and Child Care. In our foods work, health education is included, but thus far nothing has been done about a course in the latter. Formerly cooking and sewing were stressed to the exclusion of everything else. The new trend is towards a more general training in a number of phases, such as budgeting, house furnishing and decoration, home care of the sick, first aid, child care, nutrition, etc. Of course sewing and cooking are included, but the time devoted to them is shortened and short courses in some of the above phases added.

The course as given in Westbrook seems to have served its purpose well, but the time has come for a revision, which should be made, if possible, before the beginning of another school year.

Respectfully submitted,

MARY S. BYRNE.

Report of Attendance Officer

WESTBROOK, MAINE, December 31, 1925.

To Superintendent Ellingwood and Members of the School Committee,

GENTLEMEN: I have the honor to submit the following report of the truancy conditions in the schools of Westbrook for the year ending with the above date.

While the conditions in Westbrook have not been entirely satisfactory as to truancy, many of the cases have been of such type that they could be easily traced directly or indirectly to the shortcomings of parents or guardians.

I wish to thank the teachers for their courtesy and help.

My report is as follows:

Home calls, 484.

School calls, 1,259.

Pupils returned to school, 103.

Respectfully submitted,

WILLIAM F. BISHOP,
Attendance Officer.

Instructions to Teachers in Regard to Contagious Diseases

Teachers should exercise the greatest care in the treatment of all contagious diseases. If the teacher has the slightest suspicion that any case of contagious disease has been contracted in her room, or that a student having a contagious disease has been attending school and associating with other scholars, she should immediately notify either the Superintendent of Schools or the Secretary of the Board of Health, in order that the room and its contents may be disinfected with all dispatch and all necessary precautions taken to prevent a spread of said disease.

No pupil shall be admitted to or retained in the public schools who does not exhibit to his teacher satisfactory evidence that he has been vaccinated. No scholar afflicted with any contagious disease, or coming from a house where a contagious disease exists, shall be admitted to or retained in the public schools until such time has elapsed as herein stated, unless other provisions have been made by the Superintendent of Schools or the Secretary of the Board of Health:

(a) **SMALL POX.** No scholar sick with this disease shall be allowed to attend school until two weeks after recovery.

(b) **DIPHTHERIA.** No child having this disease, or any other scholars in the same family, shall be allowed to attend school during the progress of this disease or until two weeks after the membrane has disappeared from the throat of the patient.

(c) **SCARLET FEVER.** (Scarlatina, Scarlet Rash, Canker Rash.) In a malignant form this disease is one of the most fatal of contagious diseases, and the greatest care must be exercised in the prevention of its spread. No child having been ill

with Scarlet Fever shall be allowed to enter the public schools until after desquamation has taken place, and it is advised that two weeks be allowed to elapse after disinfection before the patient is allowed to enter school and mingle with other children. In families where there are other children who have been in contact with the disease, they may, provided the patient is completely isolated, be placed under the observation of a competent physician, and if, at the end of two weeks, there is no evidence that the disease has been communicated to them they may be allowed to return to school, provided that they do not again come in contact with the patient.

(d) MEASLES. Children having this disease, or those of the same family who have not had it, should not be allowed to return to school, until two weeks after the rash has disappeared.

(e) WHOOPING COUGH. This disease makes its appearance about ten days after exposure and its "run" is from six weeks to three months. As it is highly contagious the patient should not be allowed to return to school until after the spasmodic cough has entirely disappeared. It is not considered necessary to keep children in the same family, not afflicted with the disease, out of school.

(f) MUMPS. This is another disease that is far more contagious than is supposed by many, and the same precaution should be taken in cases of mumps as in other of the more serious cases of contagion. As the symptoms do not appear until about twelve days after exposure it is recommended that all children coming in contact with a case of mumps be excluded from school for at least two weeks after the symptoms have disappeared. The total duration of the disease is ten days and the patients may be admitted when the symptoms have disappeared.

(g) CHICKEN POX. It is considered necessary to exclude from school only those having the disease. The disease usually lasts about one week and the child may be admitted to school upon the disappearance of the eruption.

(h) INFANTILE PARALYSIS. From one to fourteen days are required by this disease to make its presence known after

exposure, and, from the facts obtained by investigations, it is thought to be contagious to a great degree. In order properly to guard against it the children in a family in which a case has been discovered should not be admitted to school for a full month.

(i) GERMAN MEASLES. (Rötheln). This eruptive disease has no relation to measles and scarlet fever, with which it is sometimes confounded. Its period of incubation is long, two to three weeks. The eruption appears earlier than in measles, often within twenty-four hours after the first symptoms. The rash fades about the third day or earlier and the fever gradually disappears with the rash. Desquamation is absent or very slight. The eruption is not so "blotchy" as that of measles; sometimes resembles that of scarlet fever. Incubation is longer than that of measles, and much longer than that of scarlet fever; period of invasion, shorter than that of measles; catarrhal symptoms not so severe as in measles; throat symptoms not so marked a feature as in scarlet fever. Children having this disease, or those of the same family who have not had it, should not be allowed to return to school until two weeks after the rash has disappeared.

In all cases the rule now in force requiring a physician's certificate of a child's recovery should be enforced, and, with the exception of cases d, e, f and g, the teacher should be satisfied that the house of any scholar having the above-named diseases shall have been disinfected by the Board of Health before allowing the scholar to resume work in the school and mingle with other scholars.

Auditor's Report

We, the Committee on Accounts, have examined the following report of the Auditor in detail, in accordance with the provisions of an Ordinance relating to closing the Annual Accounts and publishing the City Reports. We hereby approve said report and certify it is correct.

RALPH W. COUSINS, } Committee
NAPOLEON LEFEBVRE, } on

Report of City Solicitor

To the Honorable Mayor and City Council:

GENTLEMEN:—I herewith submit my report for the year of 1925.

There has been considerable activity in this office during the year just past. Advice has been given when requested, and routine matters have been promptly attended to. There are no suits pending in the courts in which the City is a party.

Respectfully submitted,

GROVER WELCH,

City Solicitor.

REPORT OF THE Trustees and Regents of Memorial Library

To the Honorable Council of the City of Westbrook :

GENTLEMEN:—The Trustees and Regents of the Memorial Library submit the following report :

The organization for the year was as follow : President, J. A. Warren ; Vice-President, H. E. Townsend ; Secretary, E. J. Haskell ; Auditing Committee, Mayor E. I. Cummings, J. A. Warren, G. C. Pike ; Purchasing Committee, H. E. Townsend, E. J. Haskell.

During the year the portraits of Mr. Walker and Mr. Fox have been cleaned, retouched and varnished ; the frames regilded and repaired. The expense of this has been met by the interest on the Walker fund that is in the hands of the Trustees.

The report of the Librarian shows what has been done during the year.

REPORT OF THE LIBRARIAN

To the Trustees and Regents of the Memorial Library of Westbrook :

GENTLEMEN:—I have the honor to submit the thirty-second annual report of the library for the year 1925.

ACCESSIONS

Seven hundred and five books have been added to the library and have been classified as follows : 521 fiction, 26 history and travel, 18 biography, 25 philosophy or sociology, 25 arts and sciences, 80 reference literature and the remainder miscellaneous.

Of the accessions 637 were purchased, 31 were bound magazines and 37 were gifts.

The bookcases containing the juvenile fiction being over-crowded necessitated the removal of a larger number of worn and comparatively useless books from this section.

The whole number of books withdrawn is 639, leaving a total of 18,685 volumes in the library.

The reports from the various institutions of the State have been received from the State Library.

Through the publishers, G. P. Putnam's Sons, we received a set of Professor George Lansing Raymond's works as follows: "The Aztec God and Other Poems," "Dante and Collected Verse," "The Essentials of Aesthetics," "Poetry as a Representative Art," "A Poet's Cabinet," "An Art Philosopher's Cabinet," "Ethics and Natural Law."

Other gifts were the "Fundamentals of Christianity," by Charles Foster Kent, Ph. D.; "Technology of Textile Design," by E. A. Posselt, given by E. B. Rollins.

"Addresses (1921-1925), of Percival P. Baxter," Governor of Maine, donated by the author, and "The American Odd Fellow," by J. W. Orr, given by Frank Marriner of Sanford.

GIFTS OF PERIODICALS

"The Christian Leader," from the Ladies' Society of the Universalist Church; "The Christian Science Monitor," from the Christian Science Church of Portland; "The American Legion Weekly," from the Stephen W. Manchester Post; "Every Girl's Magazine," from Mrs. A. H. Baker; and "Our Dumb Animal Friends," from the publisher.

REGISTRATION

There has been 431 adult and 149 juvenile applicants for cards.

Total registration since 1922 is 4,229.

CIRCULATION

Fifty-four thousand two hundred and seventy-two books were taken from the library for home use.

This is an appreciable gain over last year, in spite of the fact that the circulation dropped below the usual record during the summer months.

The library was open 304 days.

The average number of books loaned per day was 178.

The largest number of books delivered in one day was 490 on Saturday, Feb. 26, this being a greater number than ever before recorded in the history of the library.

READING ROOM

Approximately 6,583 persons have availed themselves of the use of the reading rooms. It is impossible to give an exact statement of this work, as the readers are constantly changing and during the busy hours the reference work is not fully recorded.

The number of mail notices sent for overdue books was 468. Fourteen calls were made to recover books.

FINANCE

Cash on hand Jan. 1, 1925,	\$ 1 67	
Total cash receipts,	260 04	
Expenditures,		\$256 44
Balance on hand,		5 27

	\$261 71	\$261 71

GENERAL STATISTICS

Total number of books in library,	18,685
Volumes added during the year,	705
Volumes withdrawn during the year,	639
Present registration,	4,229
Total circulation,	54,272

Respectfully submitted,

JENNIE G. ANDREWS, Librarian.

The increase in circulation—about 2,000 books, is most gratifying to all interested, and shows the appreciation of the citizens.

The employees have performed their duties in a very satisfactory manner, and we should ask for the sum of \$4,300 for the expenses of the year 1926.

Respectfully submitted,

MAYOR E. I. CUMMINGS,
J. A. WARREN,
PHILIP DANA,
E. L. PICKARD,
H. E. TOWNSEND,
B. C. CUTTER,
A. A. STAPLES,
G. O. PIKE,

Respectfully submitted,

GEORGE E. WEYMOUTH,

Building Inspector.

Report of the Overseers of the Poor

To the Honorable Mayor and City Council:

GENTLEMEN:—We herewith submit our report for the year 1925.

We have assisted 67 families at a cost of \$9,974.06. The receipts from outside towns have been \$1,872.84, leaving a net cost of 8,101.22.

The appropriation was \$6,000.00.

The Almshouse and Farm have been under the care of Mr. and Mrs. Frank E. Moxcey, who have completed their fourth term in a very satisfactory manner.

The appropriation was \$2,500.00. The expenditures were \$9,600.62, and the receipts were \$6,094.28, leaving a net cost of \$3,506.34.

The average number of inmates were 13.

Respectfully submitted,

EDGAR R. SHAW,

Secretary.

REPORT OF THE Committee on Street Lights

To the Honorable Mayor and City Council:

GENTLEMEN:—In regard to street lighting on Main Street part of the new unit of 250 c. p. has been installed. The balance will be installed within a short time, as considerable construction work will have to be done on the northerly side of Main Street in order to take care of street lighting on that side. All new streets that have been laid out and accepted have been taken care of. Improvements have been made on some streets in the size of the lamps, as on Mechanic Street, on the corner of Quinby Avenue, from 32 to 100 c. p.

Respectfully submitted,

EUGENE LAMONTAGNE,
HARRY B. REDDEN,
ELMER W. RANDALL,

Committee on Street Lights.

Report of the Superintendent of Cemeteries and Riverbank Park

To the Honorable Mayor and City Council of the City of
Westbrook:

GENTLEMEN:—The Superintendent of Woodlawn and
Saccarappa Cemeteries and Riverbank Park respectfully
submits his annual report for the year ending December
31, 1925.

WOODLAWN CEMETERY

RECEIPTS

Monument foundations,	268 09	
Burials,	731 57	
Rebuilding lots,	92 00	
Sale of lots,	2,531 25	
Miscellaneous,	77 00	
	<hr/>	\$4,857 98

EXPENDITURES

Labor as per pay roll,	\$4,237 74	
Supplies,	652 19	
	<hr/>	\$4,889 93

WOODLAWN CEMETERY BONDS

On hand December 31, 1924,	\$21,092 63	
23 Bonds sold, 1925,	2,068 75	
	<hr/>	
Total, December 31, 1925,		\$23,161 38
Total receipts, including sale of bonds, 1925,		\$6,926 73
Balance on hand December 31, 1925, Wood- lawn Cemetery,		\$2,316 38

NEW CIRCLE COMPLETED

As early in the Spring as the ground would permit, work was begun on the new circle which had been laid out and graded the previous fall. Lots were turfed, fertilized and seeded, and the Avenue around the circle given a coat of gravel in the month of May.

IMPORTANT SALE

The new circle was purchased by the Westbrook Odd Fellows Corporation and hereafter the circle will be known as "Odd Fellows Memorial Circle."

There are eight single lots and eight double lots in the circle, making twenty-four (24) lots in all.

The Westbrook Odd Fellows Corporation is composed of members of the two Odd Fellows Lodges in Westbrook.

Lots will be sold to members of the order or their families only.

It is the purpose of the Corporation to erect an appropriate monument in the center of the circle as soon as funds are available.

IMPROVING AVENUES

A large quantity of gravel was put on the avenues from the gravel pit on the Cemetery land.

The work of giving all avenues in the Cemetery a coat of gravel which was begun last year will be continued until every avenue in the Cemetery is put in first class condition.

GENERAL CARE OF CEMETERY

Woodlawn has had excellent care; particular attention being given to flower beds, urns, etc. The iron fence and buildings were painted, also wooden fence at the lower end of the cemetery.

NEW SECTION LAID OUT

A section containing twenty-two 16-grave lots was made up in the fall and will be completed in the early spring.

This section located on new land, between Hillside Circle and Odd Fellows' Circle, adds greatly to the beauty of Woodlawn.

RECOMMENDATIONS

The matter of erecting an iron fence on Rochester Street to take the place of the old wooden fence should be attended to at once, as the old fence is very much out of repair.

SACCOARAPPA CEMETERY

RECEIPTS

By appropriation,	\$100 00	
Interest on bonds,	156 81	
Annual care,	68 50	
Burials,	61 39	
Foundations,	20 50	
Miscellaneous,	26 21	
	<hr/>	\$433 41

EXPENDITURES

Pay roll,	\$389 86	
Miscellaneous,	48 50	
	<hr/>	\$438 36

SACCOARAPPA CEMETERY BONDS

On hand January 1, 1925,	\$2,876 25	
Six bonds sold 1925,	260 00	
	<hr/>	
Total January 1, 1926,		\$3,136 25
Total receipts, including sale of bonds,		\$698 41

Saccarappa Cemetery was all gone over in the early spring and all leaves and rubbish were removed and burned.

All lots under care received careful attention.

We trust the appropriation for this Cemetery will not be less than \$150.00 for 1926.

RIVERBANK PARK

RECEIPTS

By appropriation,	\$300 00	
Rental from houses,	526 00	
City of Westbrook,	50 00	
Miscellaneous,	28 00	
	<hr/>	\$904 00

EXPENDITURES

Pay roll,	\$512 14	
O. G. K. Robinson,	139 06	
L. W. Knight (paints),	85 05	
Miscellaneous,	204 94	
	<hr/>	\$941 19

Improvements made at Riverbank during the year consisted of painting both houses, moving the voting booth and giving avenue surrounding the circle and walks a coat of gravel and crushed stone.

A special feature was the setting out of a large bed of perennials. The bed contains more than one hundred assorted shrubs and plants.

Quite a number of maples and mountain ash were set out and the usual number of flower beds were maintained.

In closing I wish to thank all who have contributed in any way towards beautifying Riverbank Park, and sincerely trust that the appropriation will be increased to \$500.00 next year.

Respectfully submitted,

EDWIN J. LAVERTY,

Superintendent.

A. E. GREENLAW, }
 CHARLES A. HURD, } Trustees.
 EDWIN J. LAVERTY, }

Delinquent List Submitted by Collector and Treasurer

Chapter 166 of the Public Laws of the State of Maine,
for the year 1907.

An Act for the better collection of taxes.

Be it enacted by the Senate and House of Representatives in Legislature assembled, as follows:

That on and after January first, nineteen hundred and eight, all municipal officers of the cities and towns in making out the yearly report shall cause to be printed in said report the names and amounts of all delinquent tax payers which have been committed to the collector or treasurer for collection.

The failure of non-performance of this duty shall be not less than five dollars nor more than twenty-five.

Approved March 27, 1907.
